PROFESSIONAL SUMMARY

Product Designer with **6+ years of experience** specializing in healthcare applications, doctor-patient interaction systems, digital prescription interfaces, and clinic management software. Improved appointment booking completion from **71% to 83%** over 8 weeks at Meddo Health, while designing Doxper doctor pen/tablet digitization tools and ABHA health ID integration flows.

CORE CAPABILITIES

- **Healthcare UX:** Patient booking journeys, teleconsultation flows, doctor EHR/EMR dashboards, ABHA integration, digital records, prescription digitisation.
- **Clinical Workflows:** Doxper pen-to-digital tablet interface design, OPD clinic management, lab test ordering.
- **User Research & Usability:** Conducted usability testing sessions with 12 patients and 8 doctors, translating clinical feedback into release decisions.

PROFESSIONAL EXPERIENCE

Product Designer | Uncover by Meddo

Gurgaon, India | March 2022 – May 2023

- Reduced appointment booking from 6 steps to 4, improving completion rate from **71% to 83%** across 5,000+ users.
- Redesigned doctor profiles, increasing profile views by **28%** and appointment bookings by **15%** in an A/B test.
- Designed Doxper doctor application interface, enabling instant digital capture of handwritten prescriptions.
- Created logo, visual branding, mobile app, and design system foundation during the Meddo-to-Uncover transition ([uncover.co.in](#)).

Product Designer | Vgen23 / Vgenomics (Consulting)

Remote | 2024

- Designed web-based genetic interpretation tool simplifying complex genomic reporting for geneticists ([vgen23.com](#)).

SELECTED LIVE WORK
