

Mohd Hayaat Ali

PRODUCT DESIGNER | UI/UX, INTERACTION AND VISUAL SYSTEMS

mohdhayaat1@outlook.com | [+91-7905194153](tel:+91-7905194153) | Delhi NCR, India

[Portfolio](#) | Open to relocation and remote opportunities

Product and UI/UX designer with 6+ years of experience across shipped mobile apps, web products, B2B platforms, internal tools, healthcare, fuel-tech, logistics, fintech, AI automation, e-commerce, and brand-led digital experiences. I work from problem framing and user flows through wireframes, high-fidelity UI, prototypes, design systems, usability testing, and developer handoff. My strongest work simplifies complex operational journeys while maintaining clear interaction patterns and polished visual execution.

Core Capabilities

Product and UX: Product discovery, user flows, information architecture, journey mapping, wireframing, interaction design, responsive web and mobile design, prototyping, usability testing, A/B testing

Systems and Delivery: Design systems, Figma components, Auto Layout, component documentation, accessibility awareness, developer handoff, design QA, stakeholder presentations, product and engineering collaboration

Domain Experience: B2B SaaS, operational dashboards, internal tools, payment and wallet UX, KYC, logistics and fleet workflows, healthcare journeys, marketplaces, AI and finance automation, consumer brands

Professional Experience

Creative Designer | Crevia

Delhi NCR, India | June 2026 - Present

- Create graphics, videos, social content, product imagery, website assets, and campaign material across brands including Mymy, Al Yamin, Klay Consultants, ATK Shoe Manufacturer, and other client projects.
- Design and build the Mymy perfume-brand website in Wix, covering responsive page structure, product presentation, visual direction, and launch-ready assets.
- Edit podcast videos, product images, and campaign content while maintaining consistent visual systems across web and social touchpoints.

Product Designer | I-DOD

New Delhi, India | July 2025 - March 2026

- Designed onboarding, KYC verification, profile creation, matching journeys, and beta feedback loops for an early-stage relationship platform.
- Built the design system from scratch with reusable Figma components, interaction patterns, states, and implementation-ready documentation.
- Worked directly with founders and developers to turn ambiguous requirements into user flows, prototypes, high-fidelity interfaces, and practical release decisions.

Product Designer | FuelBuddy

Gurgaon, India | July 2023 - June 2024

- Redesigned diesel ordering from a 20-22 step journey into a focused location, quantity, schedule, and payment flow, improving completion from 62% to 78%.
- Reduced payment transaction errors by 38% through wallet improvements, delegated access, secondary-user controls, and configurable spend limits.
- Designed customer, FMS, pilot, and driver experiences across India and UAE, spanning mobile apps, B2B web products, analytics, maps, live tracking, asset management, and account controls.
- Replaced spreadsheet-heavy franchise operations with tools for trucks, drivers, routes, bowzers, shifts, delivery planning, quantity correction, reports, and operational status management.

- Reduced manual support input by 43% and improved ticket handling and resolution by 57% through structured support and ticketing workflows.
- Built the FuelBuddy design system from scratch across consumer, B2B, franchise, field, and operational products.

Product Designer | Uncover by Meddo

Gurgaon, India | March 2022 - May 2023

- Reduced appointment booking from six steps to four, improving completion from 71% to 83% over eight weeks using analytics and user feedback.
- Redesigned doctor profiles, increasing profile views by 28% and appointment requests by 15% in a 5,000-user A/B test.
- Designed patient, doctor, and back-office experiences spanning discovery, appointments, healthcare memberships, lab tests, digital records, and early ABHA integration interfaces.
- Conducted usability testing with 12 patients and 8 doctors, translating findings into product, design-system, and engineering priorities.
- Created Uncover's logo and brand foundation, then carried the system into its website, mobile experience, and reusable UI patterns.

UI Designer | AcadPlaza

Remote | June 2020 - March 2022

- Redesigned course catalog and search for a learning marketplace, increasing enrollments by 18% quarter over quarter.
- Created responsive web and mobile interfaces, wireframes, component patterns, and discovery journeys with an eight-person product, engineering, and content team.
