6+ years of product design experience across mobile apps, web products, B2B platforms, operational dashboards, internal tools, healthcare, logistics, and fintech-adjacent flows. Strong in Figma, design systems, wireframes, high-fidelity UI, usability testing, and developer handoff. Closest relevant proof for corporate-banking-style work is wallet/payment UX, complex operations screens, and dashboard-heavy product systems.

Most Relevant Examples

- FuelBuddy wallet and payment UX: reduced transaction errors by 38%, supported delegated access, multi-user controls, and spend limits.
- FuelBuddy business and franchise surfaces: dashboards, live tracking, order control, asset management, and reporting workflows.
- Kama Capital: trading and finance website / conversion flow work.
- Maximor AI: finance automation landing page and CFO offer flow.
- TS Logix Peru: logistics and warehouse management software plus public website.
- Uncover / Meddo: patient, doctor, and back-office product design with measurable booking improvements.

What I Would Bring

- Figma design systems and component-based product design.
- Complex workflow design for finance, operations, and B2B tools.
- Clear handoff, QA, and collaboration with engineering and product stakeholders.
- Visual polish with practical, production-minded interface decisions.
