mohdhayaat1@outlook.com | +91-7905194153 | Delhi NCR, India

Portfolio: <https://workofhayaat.framer.website> | Open to Bangkok relocation, subject to work authorization

Senior Product Designer with 6+ years of experience designing connected customer journeys, operational platforms, responsive web and mobile products, and scalable design systems. Strong record partnering with PMs, engineers, founders, and stakeholders to improve funnel completion, payment reliability, trust, and service delivery.

Core Capabilities

Product Strategy & UX: Product thinking, UX strategy, user research, journey mapping, information architecture, user flows, service design, prototyping, usability testing, experimentation, product metrics

Commerce & Operations: Customer ordering, payment and wallet UX, account controls, delegated access, fulfillment workflows, internal operations, dashboards, support systems, trust and error states

UI & Delivery: High-fidelity UI, responsive design, design systems, Figma components, accessibility awareness, developer handoff, design QA, stakeholder management

Professional Experience

Creative Designer | Crevia

Delhi NCR | Jun 2026 - Present

- Deliver responsive websites, product imagery, campaign assets, graphics, and video across multiple client brands and concurrent deadlines.

Product Designer | I-DOD

New Delhi | Jul 2025 - Mar 2026

- Partnered with founders and developers to turn ambiguous requirements into user flows, prototypes, high-fidelity interfaces, and release decisions.
- Built a reusable Figma design system from scratch with components, states, patterns, and implementation-ready documentation.

Product Designer | FuelBuddy

Gurgaon | Jul 2023 - Jun 2024

- Designed connected customer ordering and operational workflows across India and UAE spanning web, mobile, dashboards, tracking, fulfillment, and account controls.
- Redesigned diesel ordering from 20-22 steps, improving completion from 62% to 78%.
- Reduced payment errors by 38% through wallet improvements, delegated access, and configurable spend limits.
- Replaced spreadsheet-heavy operations with workflows for drivers, trucks, routes, shifts, delivery planning, corrections, and reports.
- Reduced manual support input by 43% and improved ticket handling and resolution by 57%.
- Built the FuelBuddy design system and collaborated with product and engineering through handoff and design QA.

Product Designer | Uncover by Meddo

Gurgaon | Mar 2022 - May 2023

- Improved appointment completion from 71% to 83% using analytics and user feedback.
- Increased doctor-profile views by 28% and appointment requests by 15% in a 5,000-user A/B test.
- Conducted usability testing with 12 patients and 8 doctors and translated findings into product and engineering priorities.

UI Designer | AcadPlaza

Remote | Jun 2020 - Mar 2022

- Redesigned catalog and search for a learning marketplace, increasing enrollments by 18% quarter over quarter.
- Created responsive interfaces, wireframes, and components with an eight-person cross-functional team.
