PROFESSIONAL SUMMARY

Product and UI/UX designer with 6+ years across BFSI-adjacent fintech, healthcare, logistics, and B2B enterprise platforms - the same industry mix BCT serves. I work end to end: user flows, wireframes, high-fidelity UI, design systems, accessibility-aware execution, and developer handoff, with hands-on HTML/CSS/JS from working closely with development teams, not just handing off a file and hoping.

CORE SKILLS

UX: User flows, information architecture, wireframing, journey mapping, usability testing, responsive and mobile-first design

UI & Systems: High-fidelity UI, Figma components and Auto Layout, design systems built from scratch, accessibility awareness (WCAG-aware execution), visual hierarchy and storytelling

Frontend Fundamentals: HTML, CSS, JavaScript - hands-on from close development collaboration, can build static sites independently; use AI-assisted coding tools (Claude Code, Antigravity) to extend build capability

Delivery: Developer handoff, stakeholder and client presentation, design QA, fast iteration on live deadlines
