

Mohd Hayaat Ali

PRODUCT DESIGNER | COMPLEX WORKFLOWS, SIMPLIFIED

mohdhayaat1@outlook.com | +91-7905194153 | Delhi NCR, India | Open to relocation

Portfolio: workofhayaat.framer.website

PROFESSIONAL SUMMARY

Product designer with 6+ years turning genuinely complex, multi-step journeys into flows people can actually get through - the exact problem visa applications present. At FuelBuddy I took a 20-22 step ordering process down to a focused location-quantity-schedule-payment flow, lifting completion from 62% to 78%; I've also shipped product across India and the UAE, so cross-border and compliance-heavy contexts aren't new to me. I own design end to end - discovery, flows, high-fidelity UI, testing, and the design system underneath - and I'm used to making calls in ambiguous environments alongside product and engineering, not waiting for a fully-specified brief.

CORE SKILLS

Discovery to Execution: Problem framing, user flows, journey mapping, prototyping, usability testing, iteration from data and feedback

UI & Systems: High-fidelity UI, Figma components and Auto Layout, design systems built from scratch, consistency and speed at scale

Complex Workflow Simplification: Reducing multi-step processes to focused flows, edge-case handling, cross-border/compliance-adjacent product experience

Delivery: Direct product and engineering collaboration, fast iteration, comfortable owning ambiguity

PROFESSIONAL EXPERIENCE

Product Designer | I-DOD

New Delhi, India | July 2025 - March 2026

- Designed onboarding, KYC verification, profile creation, matching journeys, and beta feedback loops for an early-stage platform.
- Built the design system from scratch: reusable components, states, and implementation-ready documentation.
- Worked directly with founders and developers to turn ambiguous requirements into user flows, prototypes, and practical release decisions.

Product Designer | FuelBuddy

Gurgaon, India | July 2023 - June 2024

- Redesigned a 20-22 step ordering journey into a focused location, quantity, schedule, and payment flow, improving completion from 62% to 78%.
- Reduced payment transaction errors by 38% through wallet UX improvements and configurable controls.
- Designed customer, FMS, pilot, and driver experiences across India and the UAE, spanning mobile apps, B2B web products, analytics, and account controls.
- Built the FuelBuddy design system from scratch across consumer, B2B, franchise, and operational products.

Product Designer | Uncover by Meddo

Gurgaon, India | March 2022 - May 2023

- Reduced appointment booking from six steps to four, improving completion from 71% to 83% over eight weeks using analytics and user feedback.
- Redesigned doctor profiles, increasing profile views by 28% and appointment requests by 15% in a 5,000-user A/B test.
- Conducted usability testing with 12 patients and 8 doctors, translating findings into product, design-system, and engineering priorities.

UI Designer | AcadPlaza

Remote | June 2020 - March 2022

- Redesigned course catalog and search for a learning marketplace, increasing enrollments by 18% quarter over quarter.
- Created responsive web and mobile interfaces, wireframes, and component patterns with an eight-person product, engineering, and content team.
