PROFESSIONAL SUMMARY

I design the products people have to trust with money and paperwork, and the operational tools partners use to move fast without spreadsheets. At FuelBuddy I redesigned wallet and payment UX (transaction errors down 38%) and replaced spreadsheet-heavy franchise operations with a real partner platform - trucks, drivers, routes, shifts, live status. At Kama Capital I designed onboarding for a multi-asset trading platform. Six years building product that has to be fast, trustworthy, and genuinely usable by a partner ecosystem, not just end consumers.

CORE SKILLS

Product & UX: User flows, wireframing, prototyping, high-fidelity UI, usability testing

Trust & Operations: Wallet/payment UX, KYC-adjacent flows, partner/franchise operational tools, live-status dashboards

Systems: Design systems built from scratch, Figma components, developer handoff

Delivery: Direct founder collaboration, fast iteration, startup pace

PROFESSIONAL EXPERIENCE

Product Designer | FuelBuddy

Gurgaon, India | July 2023 - June 2024

- Reduced payment transaction errors by 38% through wallet UX improvements, delegated access, secondary-user controls, and configurable spend limits.
- Replaced spreadsheet-heavy franchise operations with a real partner platform: trucks, drivers, routes, bowsers, shifts, delivery planning, live status - same-day operational visibility instead of manual tracking.
- Designed customer, B2B, pilot, and driver experiences across India and the UAE; built the FuelBuddy design system from scratch.
- Reduced manual support input by 43% and improved ticket resolution by 57% through structured support workflows.

Product Designer | I-DOD

New Delhi, India | July 2025 - March 2026

- Designed onboarding, KYC verification, and matching journeys for an early-stage platform, working directly with founders and developers.
- Built the design system from scratch: reusable components, states, and implementation-ready documentation.

Product Designer | Uncover by Meddo

Gurgaon, India | March 2022 - May 2023

- Reduced appointment booking from six steps to four, improving completion from 71% to 83% using analytics and user feedback.
- Conducted usability testing with 12 patients and 8 doctors, translating findings into product and engineering priorities.

UI Designer | AcadPlaza

Remote | June 2020 - March 2022

- Redesigned course catalog and search for a learning marketplace, lifting enrollments 18% quarter over quarter.
- Built responsive web and mobile interfaces with an eight-person product, engineering, and content team.
