PROFESSIONAL SUMMARY

UI/UX designer with 6+ years shipping interactive, visually confident digital products - web, mobile, and brand surfaces that don't play it safe. I own design end to end: research, flows, high-fidelity UI, prototyping, and the design system underneath. I've built identity systems from scratch (Uncover) and carried them into live product, and right now at Crevia I run visual direction across four client brands at once on fast delivery cycles.

CORE SKILLS
