

Mohd Hayaat Ali

UI/UX DESIGNER | WEB & MOBILE APPLICATIONS, DESIGN SYSTEMS, ENTERPRISE WORKFLOWS

mohdhayaat1@outlook.com | +91-7905194153 | Delhi NCR, India | Open to relocating to Chennai

Portfolio: workofhayaat.framer.website

Professional Summary

UI/UX Designer with 6+ years of experience designing web and mobile applications across enterprise, SaaS, fintech, healthcare, and logistics products. I work from user research and wireframes through interactive prototypes, responsive high-fidelity UI, design systems, and developer handoff. My strongest work simplifies complex operational workflows and dashboards into clear, consistent interfaces, built as reusable systems rather than one-off screens.

Core Skills

UI/UX for Web and Mobile: Responsive and mobile-first design, user flows, information architecture, interaction design, high-fidelity UI, native and web app interfaces, dashboards and enterprise workflows

Research and Testing: User research, usability testing, moderated sessions, A/B testing, funnel and drop-off analysis, feedback synthesis, metric-led iteration

Wireframing and Prototyping: Low- and high-fidelity wireframes, interactive prototypes, journey mapping, concept validation, stakeholder walkthroughs

Design Systems and Style Guides: Figma component libraries, Auto Layout, variants, interaction patterns, UI states, typography and colour systems, component documentation, cross-product consistency

Delivery and Collaboration: Developer handoff, design QA, specification and redline documentation, cross-functional work with product managers and engineers, design rationale presentation to stakeholders and leadership

Professional Experience

Creative Designer | Crevia

Delhi NCR, India | June 2026 - Present

- Create graphics, videos, social content, product imagery, website assets, and campaign material across multiple client brands and fast delivery cycles.
- Design and build responsive website experiences in Wix, covering page structure, content presentation, visual direction, and launch-ready assets.
- Maintain consistent visual systems across web and social touchpoints.

Product Designer | I-DOD

New Delhi, India | July 2025 - March 2026

- Designed onboarding, profile creation, KYC verification, and matching journeys for a mobile-first product, from wireframes through high-fidelity UI.
- Built a reusable Figma design system from scratch with components, variants, interaction patterns, states, and implementation-ready documentation.
- Translated ambiguous requirements into user flows and interactive prototypes, then worked directly with engineers on scoping, handoff, and release decisions.

Product Designer | FuelBuddy

Gurgaon, India | July 2023 - June 2024

- Designed customer, business, FMS, pilot, driver, and franchise experiences across India and UAE, spanning mobile apps, responsive B2B web products, dashboards, analytics, maps, live tracking, and account controls.
- Redesigned a 20-22 step ordering journey into a focused flow, improving completion from 62% to 78%.
- Reduced payment transaction errors by 38% through wallet improvements, delegated access, secondary-user controls, and configurable spend limits.
- Built the FuelBuddy design system and style guide from scratch, keeping consumer, B2B, franchise, field, and operational products visually and behaviourally consistent.
- Reduced manual support input by 43% and improved ticket handling and resolution by 57% through restructured support and ticketing workflows.

Product Designer | Uncover by Meddo

Gurgaon, India | March 2022 - May 2023

- Reduced appointment booking from six steps to four, improving completion from 71% to 83% over eight weeks using analytics and user feedback.
- Redesigned profile pages, increasing profile views by 28% and appointment requests by 15% in a 5,000-user A/B test.
- Conducted usability testing with 12 patients and 8 doctors, translating findings into product, design-system, and engineering priorities.
- Designed patient, doctor, and back-office experiences across mobile and responsive web, covering discovery, appointments, memberships, lab tests, and digital records.

UI Designer | AcadPlaza

Remote | June 2020 - March 2022

- Redesigned course catalog and search for a learning marketplace, increasing enrollments by 18% quarter over quarter.
- Created responsive web and mobile interfaces, wireframes, and reusable component patterns with an eight-person product, engineering, and content team.
