Target Role: Social Video Producer (Vertical Video) — GetYourGuide | Berlin, Germany

Dear GetYourGuide Editorial & Brand Marketing Team,

Great travel content isn't just about showing an iconic landmark—it's about capturing the visceral feeling of stepping into an unfamiliar alleyway in Rome or tasting a local dish for the first time. On TikTok, Reels, and Shorts, that emotion has to land within the first two seconds, with platform-native pacing, sound design, and genuine human perspective that never feels like a commercial ad.

I am a Video Producer, Director, and Visual Storyteller with 6+ years of hands-on experience owning full-cycle video production—from conceptualizing, storyboarding, and on-location shooting to editing, sound design, and color grading in Premiere Pro and DaVinci Resolve.

What I Bring to GetYourGuide's Vertical Video Engine:

- **Platform-Native Formats & Viral Retention (1M+ Views Shipped):** Conceptualized, shot, and edited campaign videos and vertical reels generating **10,00,000+ views** across digital channels. I understand the distinct grammar of each platform: authentic discovery hooks on TikTok, aesthetic cinematic immersion on Reels, and narrative curiosity on Shorts.
- **Full End-to-End Production & Location Agility:** Fully self-sufficient on-camera—experienced operating mirrorless/cinema camera rigs, designing portable lighting setups, directing on-screen talent, and capturing spatial ambient audio. Comfortable managing European shoot logistics and scouting authentic local creators at pace.
- **Repeatable Frameworks & Scalable Output:** Built scalable visual and content templates at Crevia across 200+ product assets and brand video campaigns, establishing repeatable editing rhythms that allowed always-on publishing without sacrificing aesthetic polish. Passionate about establishing episodic, repeatable travel series for GYG.
- **AI-Augmented Workflow & Data-Informed Craft:** Actively leverage modern AI tools for voice clean-up, automated caption timing, and rapid ideation. My cross-disciplinary UI/UX background gives me a rigorous, data-driven eye for audience drop-off points, pacing, and retention curves.

Availability & Relocation:

I am immediately available (0-day notice period), hold full qualification for the German EU Blue Card (*Fachkräfteeinwanderungsgesetz*), and am ready to relocate to Berlin and travel across Europe for productions. You can view my creative showreel and live work via the links above.

I would welcome the opportunity to connect and discuss how we can scale GetYourGuide's vertical video presence into the most inspiring travel engine on social.

Best regards,

Mohd Hayaat Ali
