

Mohd Hayaat Ali

UI/UX DESIGNER — DATA & AI PRODUCTS

mohdhayaat1@outlook.com • +91-7905194153 • Bangalore / Delhi NCR (Hybrid ready)

Portfolio: workofhayaat.framer.website

PROFESSIONAL SUMMARY

UI/UX Designer with 6+ years of experience designing complex Data & AI products, B2B SaaS platforms, enterprise dashboards, and multi-tier operational systems. Proven expertise translating complex algorithmic and data-heavy workflows into intuitive desktop and web-based interfaces in Figma. Deep experience architecting scalable design systems from scratch, collaborating closely with product managers and engineers through agile sprints, and validating designs through structured usability reviews. Shipped products across AI finance automation (Maximor AI), clinical genomics data platforms (Vgen23), enterprise logistics dashboards (TS Logix), and high-volume fleet analytics (FuelBuddy).

CORE SKILLS

- **Product & Interaction Design:** User Flows, Information Architecture, Wireframing, High-Fidelity Prototyping, Interactive Micro-Interactions, Usability Testing, Developer Handoff.
- **Data & AI Product Surfaces:** Data Analytics Dashboards, AI-Assisted Workflows, Complex Reporting Interfaces, Data Visualization, Filtering & Query UX, Decision Support Systems.
- **Design Systems & Architecture:** Figma Component Libraries, Auto-Layout, Design Tokens, Reusable UI Patterns, Documentation, Accessibility (WCAG).
- **Domain Experience:** AI Automation Platforms, Enterprise B2B SaaS, Health-Tech & Genomics, Logistics & Fleet Operations, Multi-Asset Trading.
- **Tools:** Figma, FigJam, Adobe Creative Suite, HTML/CSS fundamentals, Jira, Notion.

PROFESSIONAL EXPERIENCE

Product & UI/UX Designer — Independent / Foldr

2022 – Present | Remote / Hybrid

- **Maximor AI (AI Finance & Automation SaaS):** Designed end-to-end web interface for an AI platform automating CFO close workflows, cash posting, balance sheet reconciliations, and forecasting. Translated complex machine-learning actions into clear explainability states, status dashboards, and interactive audit trails.
- **Vgenomics (Genomics Data Platform):** Architected web-based interface and clinical reporting tool for geneticists, converting dense genomic sequencing data, variant classifications, and complex filter trees into scannable analysis dashboards.
- **TS Logix Peru (Enterprise WMS & Logistics):** Designed internal warehouse management system (WMS) and operations dashboard, mapping real-time inventory tracking, batch validation, and multi-warehouse analytics for pharmaceutical supply chains.
- **Kama Capital (Financial Trading Platform):** Designed high-conversion trading web interfaces, user onboarding flows, and market data visualization dashboards across multi-asset instruments.
- Partnered directly with engineering teams across all products, providing detailed Figma component specs, interactive state prototypes, and QA reviews to maintain 100% design fidelity in production.

FuelBuddy — Product & UI/UX Designer

2020 – 2024 | Delhi NCR

- Led UI/UX design for enterprise data dashboards, B2B web applications, and operational control platforms across India and UAE operations (serving 50,000+ businesses).
- Designed the Dubai B2B Customer Analytics Web App, building data-dense tracking dashboards, fuel consumption analytics, asset management tables, and automated invoice reconciliation workflows.
- Architected the Franchise Operations Management Platform, replacing manual spreadsheet operations with live GPS tracking maps, Gantt dispatch planners, bowser scheduling, and real-time delay handling interfaces.
- Built FuelBuddy's comprehensive design system from scratch in Figma (100+ modular components, auto-layout tokens, variants), reducing developer handoff and UI implementation turnaround by ~40%.
- Designed support ticketing UX featuring automated triage and smart routing, reducing manual agent input by 43% and boosting ticket resolution speed by 57%.

Meddo Health / Doxper — UI/UX Designer

2019 – 2022 | Delhi NCR

- Designed complex healthcare interfaces across doctor digitisation applications (Doxper pen/tablet capture), patient mobile apps, and clinic back-office administration systems.
- Redesigned Meddo 2.0 digital touchpoints and web booking workflows, increasing appointment completion rates from 71% to 83% and doctor profile engagement by 28%.
- Maintained centralized Figma design libraries and documentation, ensuring consistent interaction patterns across clinical tools and consumer interfaces.

SELECTED LIVE WORK

- **Portfolio:** workofhayaat.framer.website
- **Maximor AI (AI Finance Automation):** www.maximor.ai/cfo-offer-all
- **Vgenomics (Genomics Data & Reporting Platform):** vgen23.com
- **TS Logix Peru (Enterprise Logistics/WMS):** tslogixperu.com
- **FuelBuddy UAE (B2B Web Platform):** fuelbuddy.ae

EDUCATION

- **Bachelor of Arts (B.A.)** — University of Allahabad
